## Executive Summary

In 1967, the Hawai'i State Legislature created the Crime Victim Compensation Commission (the "Commission") to mitigate the financial impact suffered by victims of violent crime. The Commission disburses funds to pay un-reimbursed expenses for crime-related losses experienced by victims who suffer physical or emotional injury, or death, as the result of a violent crime. During Fiscal Year ("FY") 2013, the Commission processed over 1,100 compensation payments, including 755 new applications for compensation.

No State general funds have been appropriated for victim compensation since FY 2003, and the Commission is now funded solely from non-tax revenue and matching federal funds. Maintaining a consistent and adequate source of non-tax revenue to fund both compensation for crime victims and operating expenses remains an important fiscal issue facing the Commission.

The Commission continues to pursue its mission to provide each claimant with compassionate and timely service. The Commission actively collaborates with numerous public and private agencies dedicated to serving crime victims as part of its efforts to improve the overall delivery of victim compensation services. In pursuing its mission, the Commission's projects include efforts to increase non-tax revenue through a more consistent assessment and collection of the mandatory Crime Victim Compensation Fee (the "Compensation Fee") by the Judiciary, and to increase the amount of reimbursement the Commission receives through restitution from the Restitution Recovery Project. Commission efforts to reduce expenditures include the Medical Expense Reduction Project.

The **Compensation Fee** is the Commission's primary source of non-tax revenue and the assessment and collection of the Fee is vital to the Commission remaining fiscally self-sufficient. While the Compensation Fee was implemented in 1998, it was not until FY 2008 that revenue from the Compensation Fee exceeded the Commission's expenditures<sup>1</sup>. However, since FY 2010 Compensation Fee revenue has declined. The Commission will continue its court monitoring efforts, as well as its efforts to work collaboratively with the Judiciary to ensure that the Compensation Fee is assessed by judges in all eligible cases.

The **Medical Expense Reduction Project** seeks to reduce and contain escalating medical expenses by: 1) requesting that medical treatment providers accept payment of seventy percent (70%) of the fees charged, or a thirty percent (30%) reduction of the fee charged, as payment in full for the medical services provided in cases involving uninsured crime victims; and 2) negotiating with the medical treatment providers to each accept a proportionate share of the Commission's maximum award as payment in full for the medical services rendered in cases where a victim's total medical expenses incurred exceed the statutory maximum award of \$20,000.00. In FY 2013, the Commission realized savings of more than \$490,000.00 from medical bills of almost \$770,000.00 in the aggregate, a savings of thirty percent (30%).

---

<sup>1</sup>Commission revenue includes: Compensation Fees; court-ordered offender restitution as reimbursement for compensation awarded; a 10% statutory assessment on certain inmate wages; interest income; and federal matching VOCA funds.

The **Restitution Recovery Project** (the “Restitution Project”) began in 2003 to collect restitution payments from inmates and parolees, and to disburse those funds to their crime victims, or to the Commission in cases where the Commission previously provided a compensation award to the crime victim. Restitution is paid to directly reimburse the Commission in cases where the Commission previously provided a compensation award to the crime victim for medical and mental health expenses, or funeral costs, generating the necessary funding for more crime victims to receive assistance.<sup>2</sup>

As a result of the Restitution Project, more victims have received increased amounts of restitution payments from offenders, and the Commission has received more reimbursements through restitution for compensation previously paid on behalf of crime victims. These increased restitution payments support and enhance the victim’s ability to recover, serve to hold the offender accountable to the victim of their crime, and assist the offender in developing a sense of self-respect by righting the wrongs the offender has committed.

In 2011, the Governor appointed the Commission to serve as a member of the **Justice Reinvestment Initiative (JRI)** Working Group. The JRI Working Group was comprised of leading state and local officials who worked with the Council of State Governments Justice Center in partnership with the Pew Center on the States and the United States Department of Justice’s Bureau of Justice Assistance, to develop a policy framework to address identified areas of concern within Hawai`i’s criminal justice system. Part of the Commission’s role as a member of the JRI Working Group was to engage crime victims, survivors, and victim services providers and advocates in identifying key issues and concerns specific to the JRI initiative. The Working Group’s policy framework became the basis for the JRI legislation.

The Hawai`i State Legislature passed the Justice Reinvestment Act (Act 139) during the 2012 legislative session. JRI is landmark legislation that is not only designed to increase public safety while reducing spending on corrections, but also created the first comprehensive victim component that has since become a national model. According to the Council of State Governments, Hawai`i’s JRI efforts represent the highest number of substantive policy inclusions for crime victims to date in any state’s justice reinvestment project, and Hawai`i is the only state with a comprehensive crime victim component as part of its Justice Reinvestment Initiative.

The Victim Services Component was intended to “improve accountability and consistency of restitution collection and enhance reentry through victim safety planning.” News Release by Governor Neil Abercrombie State of Hawai`i Develops Comprehensive Plan to Improve Criminal Justice System January 17, 2012. To assist in the implementation of the victim services component, the Commission serves as the Lead Co-Chair of two JRI implementation workgroups – the JRI Restitution Workgroup and the JRI Victim Services Workgroup. The

---

<sup>2</sup> Section 706-646(2), Hawai`i Revised Statutes, provides, in part, that “the court shall order restitution to be paid to the crime victim compensation commission in the event that the victim has been given an award for compensation under chapter 351.”

workgroups are comprised of representatives from the Commission, the Judiciary, Victim Witness Programs of the County Prosecutor's Offices, Department of Public Safety, and the Department of the Attorney General. The Victim Services Workgroup also includes representatives of the victim services community.

JRI Restitution Workgroup:

The JRI Restitution Workgroup is tasked with the following three goals:

1. Facilitate the implementation of victim restitution collection pursuant to Hawai'i Revised Statutes (HRS) §353-22.6, which was amended by Act 139 on July 1, 2012, to increase the amount of restitution payable by inmates from 10% of inmates wages to 25% of all funds deposited into an inmate's account.
2. Address issues that impact the timely and accurate collection of restitution by improving interagency collaboration and establishing policies and procedures to ensure consistent restitution collection.
3. Develop a statewide restitution database within the Commission to provide policy makers with comprehensive data about court-ordered restitution. The improved database is being developed with funding assistance from the Bureau of Justice Assistance (BJA) and will also provide the Commission with the ability to interface with and extract data from other state criminal justice agencies

JRI Victim Services Workgroup:

The JRI Victim Services Workgroup has the following three goals:

1. Establish a correction-based victim services program within the Department of Public Safety to coordinate with County Victim Services Programs regarding victim and community safety planning and to develop a victim impact panel that promotes offender accountability;
2. Create a self-funded, sustainable, victim-centered Statewide Automated Victim Notification (SAVIN) program which provides victim notification of changes in offender custody status and parole hearing notices, and convene the SAVIN Governance Committee which is tasked with ensuring that the SAVIN program implementation is victim centered; and
3. Establish JRI victim service positions within the various County Prosecutor's Offices to ensure information sharing within the various victim services programs and to assist victims with safety planning, restitution, and offender custody status notification.

The Commission will continue to participate in these workgroups until the completion of the implementation phase of JRI.

## Mission Statement

“The mission of the Crime Victim Compensation Commission is to equitably and efficiently provide crime victims with the services due to them under Hawai‘i law. In doing so, the Commission treats every victim and survivor with dignity and respect, acknowledging the tremendous impact that violent crime has upon crime victims and our society.”

## Overview and History

The Hawai‘i State Legislature created the Commission in 1967 to compensate victims of violent crimes for their out-of-pocket expenses, losses, and pain and suffering resulting from the crime. The Commission was only the third organization of its kind in the country when it was established.

To be eligible for an award, a victim of a violent crime must report the crime to law enforcement without undue delay, apply to the Commission for compensation within eighteen (18) months after the date of the incident, and provide the Commission with documentation of their expenses and losses (i.e., medical bills, insurance statements, pay stubs, etc.) resulting from the crime.

The Commission has processed over 23,000 victim applications since it was established, and presently awards between six hundred thousand dollars (\$600,000.00) to over one million dollars (\$1,000,000.00) per year in compensation to crime victims. These awards have assisted victims with medical costs, counseling costs, lost wages, and funeral expenses not covered by other sources. Many victims would not be able to receive rehabilitation services, counseling services, or bury a loved one without compensation awarded by the Commission.

Through 2001, the Commission relied primarily on State general funds to finance compensation awards and operating costs. In 2003, the Commission became fiscally self-sufficient, relying solely on the following:

- Compensation Fees assessed by judges against criminal offenders (primary source of revenue)
- Court-ordered offender restitution as reimbursement for compensation awarded
- Ten percent (10%) of Hawai‘i inmate wages (for offenders convicted of violent crimes)
- Interest income from funds on deposit
- Federal VOCA funds – the Commission receives a sixty percent (60%) federal match for every State dollar expended to compensate victims of violent crime

## Annual Activity

### Operations

During FY 2013, the Commission received 755 new applications for compensation and processed over 1,100 compensation awards. The Commission gives each application full consideration and works diligently with every applicant to ensure accurate and efficient claims processing.

FY 2003 was the first year that the Commission operated without expending any Hawai'i taxpayer dollars. This means that all funds expended by the Commission for compensation come from the non-tax revenue sources listed above on Page 4 of this Report. It is, therefore, essential that the Compensation Fee be assessed and collected by the Judiciary in all eligible cases. The Commission necessarily must rely on cooperation and support from the Judiciary to assess and collect the Compensation Fee from convicted offenders in all eligible cases.

***“I wanted to thank you so much for all of your help. How hard you worked to help make it possible to get my son...taken care of. There was so little time but you helped so much in making everything work out so that we could all be part of spreading his ashes. Thank you so much.”***

*Parents of a murder victim*

It is vitally important to note here that Hawai'i now receives a sixty percent (60%) federal match from the Victims of Crime Act (VOCA). This means that for every dollar of Compensation Fees not assessed by judges against, and collected by the Judiciary from, all eligible convicted offenders' results in a compounded total loss of one dollar and sixty cents due to the concomitant loss of the sixty percent federal match.

## **Compensation in Action - Compensation for Crime-Related Expenses**

### Case #1 – Motor Vehicle Accident Victim

The 50-year-old male Victim was injured as the result of a Negligent Injury I incident where the driver hit the Victim's vehicle head-on. The Victim suffered a fractured right upper tibia, a fractured pelvis, pain to his entire back, chest, and abdomen area, a broken middle toe, and various abrasions and contusions. The federal social security department determined that the Victim became disabled on the date of the incident and was unable to continue working as a commercial manager. After exhausting all no-fault motor vehicle insurance benefits, the Victim was still facing substantial medical expenses and lost earnings. The Commission awarded the Victim the \$10,000.00 maximum award to pay for the remaining medical expenses as well as to compensate the Victim for lost earnings incurred as a result of the crime.

### Case #2 – Murder Victim

The 41-year-old male Victim was beaten to death by two males. Victim's widow was faced with substantial medical and funeral expenses. The Commission negotiated with medical providers to accept \$6,000.00 as payment in full to satisfy more than \$31,000.00 of medical expenses owed. The Commission awarded reimbursement in the amount of \$4,000.00 to the Victim's surviving family members to help cover the cost of the funeral expenses.

### Case #3 – Assault Victim Restitution Recovery

The 52-year-old male Victim was assaulted by another male with a metal baton. Victim suffered lacerations to his head and incurred \$3,980.23 in medical expenses. The Commission negotiated with medical providers to accept \$2,873.47 as payment in full. With the assistance of prosecutors and victim witness advocates, the Commission requested, and the court ordered, that the defendant be held accountable for his actions and pay restitution to reimburse the Commission. To date, the Commission has collected \$2,372.25 from the Defendant.

### Case #4 – Sexual Assault of a Minor Victim

The male Victim reported to police that, beginning in the fifth grade, he was sexually assaulted repeatedly by his uncle. Victim suffered emotional trauma. The Commission awarded, and will continue to award, compensation for mental health services provided by the Sex Abuse Treatment Center.

## Commission Projects

### Medical Expense Reduction Project

The Commission initiated the Medical Expense Reduction Project in FY 2006 to reduce overall medical expenses of uninsured victims of violent crime. Escalating medical costs have continued to further tax the Commission's already limited resources. This is especially evident in cases where the victim's medical expenses are not covered by medical insurance. In an attempt to mitigate rising medical costs, the Medical Expense Reduction Project has proven to be an unqualified success and absolutely necessary to allow the Commission to continue providing much-needed financial assistance to the victims of violent crimes in Hawai'i.

Compensation for crime-related medical expenses is limited under Section 351-62(b), Hawai'i Revised Statutes, to a maximum of \$20,000.00 in cases involving compensable medical expenses<sup>3</sup> for catastrophic injuries. This limit is easily exceeded when a violent crime victim is hospitalized for more than several days. Many crime victims who are uninsured fall into the gap group who make too little money to afford medical insurance, and too much money to qualify for Quest medical insurance.

The Commission has taken a two-pronged approach to this issue:

1. Medical Expenses Do Not Exceed the \$20,000.00 Statutory Limit  
The Commission requests that medical providers accept 70% payment from the Commission as payment in full for their services for uninsured crime victims. In this way, the Applicant is not responsible for the remaining 30% of the expenses, and the Commission retains more funds to benefit other crime victims.
2. Medical Expenses Exceed the \$20,000.00 Statutory Limit  
The Commission leverages the \$20,000.00 maximum award against the full amount of the medical expenses owed by the Applicant by requesting that the medical providers accept the Commission's payment as payment in full. This has enabled the Commission to leverage the \$20,000.00 maximum award available for compensable medical expenses to benefit the Applicant by not having any remaining balance due.

---

<sup>3</sup> **§351-62 Limitations upon award of compensation.** ... (b) No compensation shall be awarded under this chapter in an amount in excess of \$10,000; provided that, if a case involves compensable medical expenses in excess of \$10,000, no compensation shall be awarded in excess of \$20,000 or the actual amount of compensable medical expenses, whichever is lower....

While not all medical providers in the cases selected for the Medical Expense Reduction Project agreed to take a reduced payment as payment in full, in the Medical Expense Reduction Project cases where the Commission was successful in FY 2013, crime victims realized savings of more than \$490,000.00 from medical bills of almost \$770,000.00 in the aggregate, a savings of thirty percent (30%).

Over the course of the Project, the Commission has saved victims and the Commission over \$1,500,000.00.

## Restitution Recovery Project

***“...in the criminal justice system, the victim of crime is almost always neglected. By requiring the convicted person to make restitution and reparation to the victim, justice is served. In so doing, the criminal repays not only “society” but the persons injured in the criminal’s act. There is a dual benefit to this concept: the victim is repaid for his loss and the criminal may develop a degree of self-respect and pride in knowing that he or she righted the wrong committed.”***

*Sen. Stand. Comm. Rep. No 789, in 1975 Senate Journal @1132, commentary on the Senate’s intent in passing HRS section 706-605(1)(e) which authorizes Courts to order restitution.*

Section 706-605(1)(e), Hawai‘i Revised Statutes, was enacted in 1975 to provide the Courts with specific statutory authority to order defendants to make restitution payments to reimburse the economic losses suffered by the victims of their crime. Since the passage of this provision, a significant number of victims have not received the court-ordered restitution that they are entitled to. Victims have found it particularly difficult to recover court-ordered restitution from sentenced felons<sup>4</sup> and parolees.

The Judiciary previously processed restitution payments for all offenders, including inmates and parolees. For a decade, the Judiciary made efforts to divest itself of the responsibility for processing restitution payments made by inmates and parolees. During this time period, the Judiciary and the Department of Public Safety (“PSD”) had been at an administrative stalemate over who was responsible for processing restitution payments made by inmates and parolees.

The system to process court-ordered restitution payments was not working. In order to open a restitution account for an inmate or parolee, the Judiciary required the name and address of the victim before they would accept any restitution payments. This procedure created a significant barrier to the payment of restitution by inmates and parolees. In many cases it was difficult or impossible for PSD and the Hawai‘i Paroling Authority (the “Paroling Authority”) to secure the name and address of the victim. Victim service providers were understandably uncomfortable about giving the names and addresses of domestic abuse, sexual assault, and other crime victims to PSD and the Paroling Authority. There were concerns that victim safety would be jeopardized if an inmate or parolee inadvertently saw the name and address of their victim in their case file.

Despite numerous meetings between the Judiciary, PSD, the Paroling Authority, and victim service providers, and several false starts, efforts to resolve this issue ultimately failed until the Commission stepped forward. With the support of the PSD Director, the Paroling Authority, and the Honolulu Victim Witness Kokua Program, the Commission initiated a pilot project to accept responsibility for the collection and disbursement of restitution paid by inmates and parolees.

---

<sup>4</sup> Excludes inmates sentenced to incarceration as a condition of probation.

On January 1, 2003, the Commission initiated the pilot Restitution Project to collect and disburse restitution paid by inmates and parolees. The Commission has opened over 4,000 restitution and

compensation fee cases and collected over \$2,000,000.00 to disburse to crime victims from January 1, 2003 through June 30, 2013. Information identifying the whereabouts of crime victims is kept confidential so that the safety needs of victims are being met. The barriers that made it difficult for PSD and the Paroling Authority to

***“Because of the collaborative efforts between the Crime Victim Compensation Commission and the Hawai‘i Paroling Authority, there are more timely payments of restitution to crime victims than there have been in the past.”***

*Tommy Johnson, Administrator, Hawai‘i Paroling Authority*

open restitution accounts at the Judiciary have also been eliminated. PSD and the Paroling Authority need only send restitution payments to the Commission and the Commission disburses the restitution payment to the victim.

A functional Restitution Project benefits all involved. It is now easy for Parole Officers to increase the accountability of offenders by having them repay the crime victim they injured. This Project also assists the County Victim Witness Programs in their efforts to restore the crime victims they serve. In cases where the Commission previously provided compensation awards to crime victims for medical, mental health, or funeral costs, the Commission receives direct reimbursement of those funds, allowing more crime victims to receive assistance.<sup>5</sup>

***“Restitution is the cornerstone of restorative justice. Saying we are committed to restorative justice means nothing unless we make a sincere and concerted effort to make sure victims get restitution - without that - restorative justice means nothing. If an offender is not serious about paying restitution, they are not serious about rehabilitating themselves.”***

*Dennis Dunn, Director, Victim Witness Kokua Program, Department of the Prosecuting Attorney, City and County of Honolulu*

## **Restitution Collection**

Restitution collection from inmates and parolees<sup>6</sup> has increased significantly over the life of the Project. In the first calendar year (2003) of the Restitution Project, the Commission collected more than \$46,000.00 and in the past calendar year (2012), the Commission collected more than \$600,000.00 which includes a one time payment of \$351,253.45. The Commission believes that the significant increase in restitution collections over the life of the Restitution Project reflect the

---

<sup>5</sup> Section 706-646(2), Hawai‘i Revised Statutes, provides, in part, that “the court shall order restitution to be paid to the crime victim compensation commission in the event that the victim has been given an award for compensation under chapter 351.”

<sup>6</sup> Restitution payments are from inmates and parolees and do not include payments from inmates incarcerated as a condition of probation.

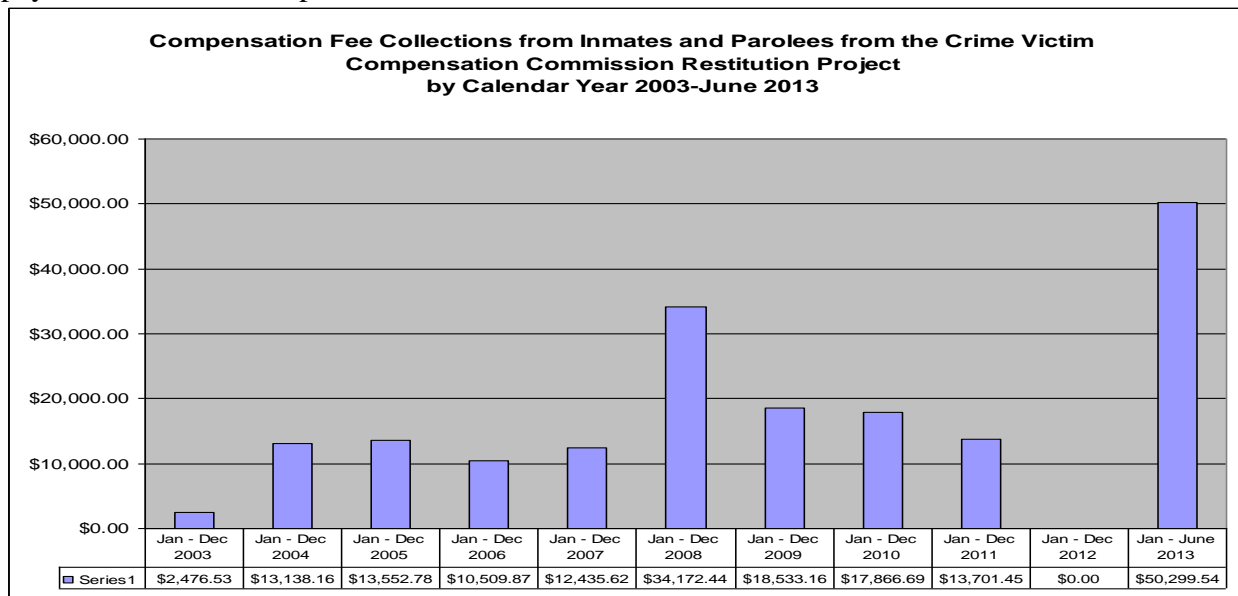

gradual institutionalization of restitution assessment by judges and collection of restitution by the correctional facilities and the Paroling Authority.

\* Series 1 reflects the total restitution collected during the fiscal year; Series 2 reflects one-time payment anomalies during the relevant fiscal year.

### Compensation Fee Collection

The Restitution Project has unexpectedly also resulted in an increase in the collection of the Compensation Fee from parolees. In the first year of the Project, the Commission collected more than \$2,000.00, and in the past year, the Commission collected over \$50,000.00 in Compensation Fees. While the Paroling Authority has authority to collect Compensation Fees from a parolee, the correctional facilities do not presently have statutory authority to garnish inmate wages to pay court-ordered Compensation Fees.

## Justice Reinvestment Initiative

In 2011, the Governor appointed the Commission to serve as a member of the **Justice Reinvestment Initiative (JRI)** Working Group. The JRI Working Group was comprised of leading state and local officials who worked with the Council of State Governments Justice Center in partnership with the Pew Center on the States and the United States Department of Justice's Bureau of Justice Assistance, to develop a policy framework to address identified areas of concern within Hawai'i's criminal justice system and to develop data-driven, consensus-based policy options designed to reduce corrections spending and increase public safety. And Hawai'i became the first state to reinvest substantial money into victim services. Part of the Commission's role as a member of the JRI Working Group was to engage crime victims, survivors, and victim services providers and advocates in identifying key issues and concerns specific to the JRI initiative. The Working Group's policy framework became the basis for the JRI legislation.

The Hawai'i State Legislature passed the Justice Reinvestment Act (Act 139), commonly referred to as the JRI Act, during the 2012 legislative session. The JRI Act is landmark legislation that is not only designed to increase public safety while reducing spending on corrections, but also created the first comprehensive victim services component. The JRI victim services component made the needs of victims and offender accountability key parts of the JRI Act. The JRI victim services component's primary goals are (1) to ensure victim and community safety; (2) to establish a permanent, self-funded statewide victim notification program (SAVIN); and (3) to ensure victim restitution is ordered and enforced in all eligible cases. The JRI victim services component has since become a national model. The Commission's Executive Director's efforts to ensure the passage of the JRI victim services component, was recognized when she received the Department of Justice's Office for Victims of Crime, Crime Victim Financial Restoration Award in April 2013 from United States Attorney General Eric Holder.

To meet victim needs and increase offender accountability, the JRI Act increased the amount of restitution to be paid by inmates and created 22 victim services positions. Prior to the JRI Act, Hawai'i Revised Statutes (HRS) § 353-22.5 required the director of public safety to deduct 10% of inmate wages to satisfy restitution orders. The JRI Act amended HRS § 353-22.5 by increasing the amount to be deducted from inmate accounts to 25% of all earnings, deposits and credits. To assist victims with collection of restitution and coordination of safety planning and notification, fifteen positions for county-based victim advocates were created; two positions were created to be part of the corrections-based victim service program within PSD; and five positions were created within the Commission to establish a data driven restitution accountability program that monitors restitution collections and disbursements, and identifies problems and issues with restitution collection. The JRI Act also appropriated \$150,000.00 for the Commission to create a comprehensive computer database to track restitution orders, collections and payments to

victims. An additional \$100,000.00 grant from the Bureau of Justice Administration was secured by the Commission for the database.

To assist in the implementation of the JRI Act, the JRI Implementation Working Group and its subcommittees were created. As a member of Hawai'i's JRI Implementation Working Group, the Commission was tasked with representing the interests of crime victims and survivors and to engage crime victims, survivors, service providers, and advocates in identifying key issues and concerns specific to the JRI Act. The Commission also serves as the lead co-chair of two JRI Implementation Working Group subcommittees – the JRI Restitution Workgroup and the JRI Victim Services Workgroup. The JRI Restitution Workgroup and the JRI Victim Services Workgroup is comprised of representatives from the Judiciary, Victim Witness Programs of the county prosecutor's offices, Department of Public Safety, and the Department of the Attorney General. The JRI Victim Services Workgroup also includes representatives of the victim services community.

#### JRI Restitution Workgroup:

The JRI Restitution Workgroup has the following goals:

- 1) Facilitate the implementation of victim restitution collection pursuant to HRS § 353-22.6, which was amended by Act 139 on July 1, 2012, to increase the amount of restitution payable by inmates from 10% of inmates wages to 25% of all funds deposited into an inmate's account.
- 2) Address issues that impact the timely and accurate collection of restitution by improving interagency collaboration and establishing policies and procedures to ensure consistent restitution collection.
- 3) Develop a statewide restitution database within the Commission to provide policy makers with comprehensive data about court-ordered restitution.

The JRI Restitution Workgroup was tasked with monitoring the effective implementation of HRS § 353-22.6, as amended by the JRI Act. The JRI Act increased the amount of restitution payable by inmates from 10% of inmates wages to 25% of all funds deposited into an inmate's account. The JRI Restitution Workgroup, in conjunction with PSD, identified the issues affecting the implementation of the 25% deduction of inmate earnings, deposits, and credits, and worked together to find solutions to the issues.

The workgroup identified the following issues affecting the implementation of the 25% deduction of inmate earnings, deposits, and credits:

- The 25% deduction of inmate earnings, deposits, and credits has not been consistently implemented in all of the correctional facilities.
- PSD does not receive all of the necessary court documents.
- PSD does not consistently identify all restitution cases.

- PSD does not have policies and procedures regarding the collection of restitution that are consistent throughout the facilities.
- Since HRS § 353-22.6 was amended to require that 25% of inmate earnings, deposits and credits be applied to restitution orders, the courts have ordered that the inmate does not have to pay any restitution while incarcerated and have ordered payments at a rate less than 25%. Despite the legislature's intent to increase the restitution collection to 25%, the Attorney General advised PSD to follow the court order rather than the statute.
- PSD was advised that the statutory amendment providing for the deduction of 25% of all inmate earnings, deposits and credits only applied to sentences imposed on or after July 1, 2012, the effective date of the JRI bill.
- On August 24, 2012, PSD requested an Attorney General's opinion on the issues of how to determine the priority of restitution payment when an inmate has multiple restitution orders, whether the 25% deduction applies to probationers who are serving a term of incarceration as a condition of probation, and whether restitution can be collected from money transferred from an inmate's work furlough account to the inmate's trust account. A response is still outstanding and necessary for the creation of the policies and procedures.
- PSD's Inmate Trust Accounting System cannot accommodate the varying restitution deduction amounts. The system was created to only accommodate a single deduction percentage of a singular pool of money i.e. 10% of inmate wages OR 25% of all inmate earnings, deposits, and credits.

The JRI Restitution Workgroup is working collaboratively with PSD and the Judiciary to remove these obstacles to timely, consistent and accurate collection of restitution. The workgroup monitors progress, helps to identify the agencies that need to be included in the discussions, and assists in bringing the necessary parties together in a collaborative atmosphere. On January 29, 2013, the Judiciary and PSD agreed to work to educate the judges regarding the importance of imposing the 25% deduction as set forth in HRS § 353-22.6. Other potential solutions to the identified problems:

- An amendment to HRS § 353-22.6 allowing the 25% deduction of inmate earnings, deposits, and credits to be applied to all outstanding restitution orders regardless of the date of imposition was introduced during the 2013 legislative session.
- An amendment to HRS § 353-22.6 clarify that the 25% deduction of inmate earnings, deposits, and credits applied even if a court made an order to the contrary was introduced during the 2013 legislative session.
- Await the Attorney General's opinion on the issues listed above. Once the opinion is received, the JRI Restitution Workgroup will work with PSD to create the necessary policies and procedures for PSD restitution collection.
- Work with the Judiciary and PSD to create the means for PSD to receive the necessary court documents.
- Develop standardized language for restitution orders.

With the support of the JRI Restitution Workgroup and the JRI Victim Services Workgroup, the Commission contacted the American Probation and Parole Association (APPA) to put together a statewide training program aimed at providing parole officers, probation officers and facility counselors with tools to enforce court ordered restitution, methods to encourage criminal offenders to pay restitution, and techniques in speaking to and empathizing with crime victims. With funding from JRI, trainings were conducted in the four major counties over the course of two weeks. The Department of Public Safety, Hawai'i Judiciary, Hawai'i Paroling Authority and the County Prosecutor's Offices sent 270 participants. Hawai'i is the only state that has taken a comprehensive approach to restitution collection and provided training for all probation and parole officers statewide.

To monitor the progress of the implementation of the changes to restitution collection and to improve the efficiency of processing restitution payments, the JRI Restitution Workgroup is overseeing the creation of a new database within the Commission. The new database will provide easier access to detailed restitution data and reports. Through data-sharing interfaces with other criminal justice databases, the new system will also compile an unprecedented statewide restitution dataset that will help to inform the public, policy-makers, and policy-implementers about the state of restitution management in the State of Hawai'i.

#### JRI Victim Services Workgroup:

As co-chair of the JRI Victim Services Workgroup, the Commission worked with the other members of the workgroup to address and accomplish the following three goals:

Goal 1: Establish A Correction Based Victim Services Program Within The Department Of Public Safety To Coordinate With County Victim Services Programs Regarding Victim And Community Safety Planning And To Develop A Victim Impact Panel That Promotes Offender Accountability.

In July 2012, JRI authorized the creation of the Correction Based Victim Services Program (CBVS Program) within PSD and created two staff positions for the CBVS Program. Hawai'i is currently the only state without a CBVS Program. Hawai'i's CBVS Program is envisioned to staff the statewide victim notification program (SAVIN), assist in addressing restitution shortfalls in PSD, coordinate with community victim service providers to ensure that victims receive timely notification of offender custody status as required by HRS § 801D-4, and have appropriate safety planning, educate offenders about the impact of the crime on victims through victim impact panels, and ensure that victims are protected from harassment by incarcerated offenders.

To facilitate the creation of the CBVS Program, the Commission drafted a letter for PSD Director Ted Sakai's signature to the National Institute of Corrections (NIC) requesting assistance in creating a strategic plan for the creation of the CBVS Program. The NIC accepted PSD's application and provided a facilitator to develop the strategic plan. The Commission coordinated the Strategic Planning Meeting that brought together the NIC facilitator with victim witness coordinators

from the four counties as well as personnel from PSD. At the present time, the workgroup is awaiting the recommended strategic planning report from NIC.

The JRI Victim Services Workgroup also drafted position descriptions for the two staff positions for the CBVS Program. The JRI Services Workgroup envisioned that the positions would at a minimum require prior victim-centered experience and is working to have PSD utilize its position description.

Goal 2: Create A Self-Funded, Sustainable, Victim-Centered Statewide Automated Victim Notification (SAVIN) Program Which Provides Victim Notification Of Changes In Offender Custody Status And Parole Hearing Notices, And Convene The SAVIN Governance Committee Which Is Tasked With Ensuring That The SAVIN Program Implementation Is Victim Centered.

HRS § 801D-4, provides crime victims and witnesses with the right, upon request, to be notified by PSD of changes in the custody status of the offender. Prior to 2008, PSD provided manual notification through the county victim assistance programs in the county Prosecutors' Offices. This manual notification system was not uniformly applied in each of the counties, was only available during regular business hours, and resulted, in some cases, with untimely notification made to victims and witnesses. In order to address these concerns, PSD applied for and, in 2008, received federal grant funds to establish SAVIN. The federally-funded SAVIN Program was temporary until JRI legislation created the permanent SAVIN program and established the SAVIN Governance Committee.

SAVIN is an essential element of JRI. The ability of crime victims to have input in decision making about the appropriateness of an offender's release, and the impact of the offender's release on the victim's safety, as well as on the safety of the community at large, is dependent on timely notification of custody status. Since its establishment, SAVIN has provided thousands of crime victims, witnesses, survivors, victim service providers, law enforcement agencies, and concerned members of the public with automatic, timely information in advance of changes in an offender's custody status

JRI legislation created a permanent self-funded, sustainable SAVIN program within PSD. A special fund was established which is funded through a 4% assessment on purchases by offenders in correctional facilities and through telephone fees collected on calls made by offenders from correctional facilities. Collection of funds into the SAVIN special fund account are estimated to cover the cost for the system as well as any additional costs that may be associated with the SAVIN program including funds for a SAVIN Coordinator position.

In conformity with the Bureau of Justice Assistance standard, JRI created the SAVIN Governance Committee whose mission is to ensure that SAVIN is victim centered. The Commission was appointed a member of the SAVIN Governance Committee. The Commission served as the interim chair and guided the committee through its establishment and the election of a permanent chairperson.

The committee is comprised of county victim service providers and advocates, crime victims, technology experts, members of the criminal justice community, and the Commission's Executive Director. The SAVIN Governance Committee's purpose is to ensure that the implementation of the SAVIN Program is based on victim-focused principles of victim/survivor safety, confidentiality, and autonomy while maintaining the balance between agency-level decision-making and broad-based input from the participants and users of the SAVIN program which includes victims and survivors.

Goal 3: Establish JRI Victim Service Positions Within The County Prosecutor's Offices To Ensure Information Sharing Within The Victim Services Programs And To Assist Victims With Safety Planning, Restitution, And Offender Custody Status Notification

JRI funded fifteen victim service positions within the four counties' Victim Witness Assistance Programs. These positions were established to assist and inform victims about safety planning, restitution in court, and offender custody status notification. The JRI Victim Services Workgroup monitored the creation and filling of the positions. All fifteen victim services positions are filled; however, these positions were only funded until July 30, 2014. Therefore, continued funding from the legislature is necessary.

To measure the impact of the fifteen victim services position, the Victim Services Workgroup has created a uniform, standardized dashboard data collection tool for use by the county Victim Witness Assistance Programs to collect information on the implementation of JRI from the counties.

According to the Council of State Governments, Hawai'i's JRI efforts represent the highest number of substantive policy inclusions for crime victims to date in any state's justice reinvestment project, and Hawai'i is the only state with a comprehensive crime victim component as part of its Justice Reinvestment initiative.

## Assessment and Collection of the Mandatory Crime Victim Compensation Fee

The Legislature established the mandatory Crime Victim Compensation Fee in 1998 to provide a funding base for the Commission to begin the process of becoming fiscally self-sufficient. The mandatory Compensation Fee must be assessed by judges against every offender who is convicted of, or who enters a deferred plea (DAG/DANC) to, a petty misdemeanor, misdemeanor, or felony, and is able to pay the fee.<sup>7</sup>

Since the implementation of the Compensation Fee, the Commission encountered significant barriers to collecting the Compensation Fee. For fiscal years 1999, 2001, and 2002 combined, the Judiciary fell nearly one million dollars short of its own estimates for Compensation Fee collections. After 2002, the Judiciary simply ceased providing estimates for Compensation Fee collections. Courtroom surveys revealed that judges were not ordering the Compensation Fee in all eligible cases. For example, judges were (1) waiving the Compensation Fees, but assessing fines with lower priority; (2) not assessing the fee for each eligible offense committed by the same defendant; or (3) unaware of the Compensation Fee altogether.

When attempts to collaborate with the Judiciary failed, the Commission requested, and the Legislature passed in 2005, an increase of five dollars (\$5.00) in the Compensation Fee for all crime categories. The Judiciary's collection of the Compensation Fee again fell short of anticipated revenue increases. Concerned that insufficient funds were being collected, the Legislature passed a resolution in 2007 requiring the Judiciary to report its progress in ordering and collecting the mandatory Compensation Fee. According to the Judiciary's response, the Compensation Fee was ordered in seventy-nine percent (79%), and waived in twenty-one percent (21%), of eligible cases. The Judiciary, however, could not provide the number of cases in which the Compensation Fee was actually collected, except to say that during the first quarter of fiscal year 2008, \$183,051.00 was collected.

As a result of the Legislature holding the Judiciary accountable, revenue from the Compensation Fee increased, and for the first time ever, revenue from the Fee exceeded the Commission's expenditures in FY 2008 and FY 2009. However, collections dropped off in FY 2010, FY 2011 and FY 2012. In FY 2013, collections dropped to a ten-year low of \$788,139.00.

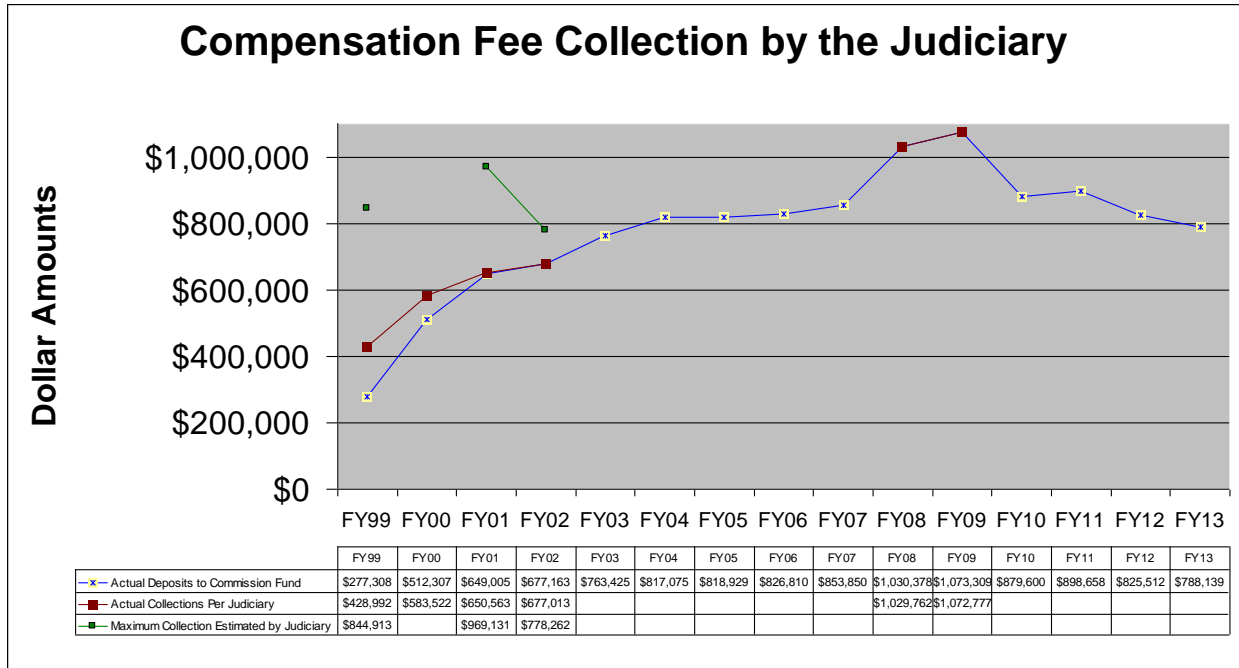

The Commission is acutely aware that its ability to remain self-sufficient depends on judges ordering the Compensation Fee, and the Judiciary successfully collecting the Compensation Fee from offenders in all eligible cases. For this reason, the Commission remains committed to its efforts to ensure that the mandatory Compensation Fee is assessed by judges and collected by the Judiciary in all eligible cases where the offender has the ability to pay. The Commission will continue to closely monitor whether or not judges order the Compensation Fee, and whether or

---

<sup>7</sup> Section 351-62.6, Hawai'i Revised Statutes, provides that the court shall assess a Compensation Fee against every convicted offender, or offender who enters a deferred plea, and who is or will be able to pay the Fee. Fees are assessed as follows:

1. a \$30 fee for a petty misdemeanor;
2. a \$55 fee for a misdemeanor; and
3. a \$105 to \$505 fee for a felony.

not the Judiciary collects it, in all eligible cases. The collection of the Compensation Fee by the Judiciary directly impacts the Commission’s ability to continue to assist the victims who apply for compensation and without these funds the Commission will be unable to provide compensation going forward.

Note: Blank fields in the table indicate that the data for that year was not available.

## Conclusion

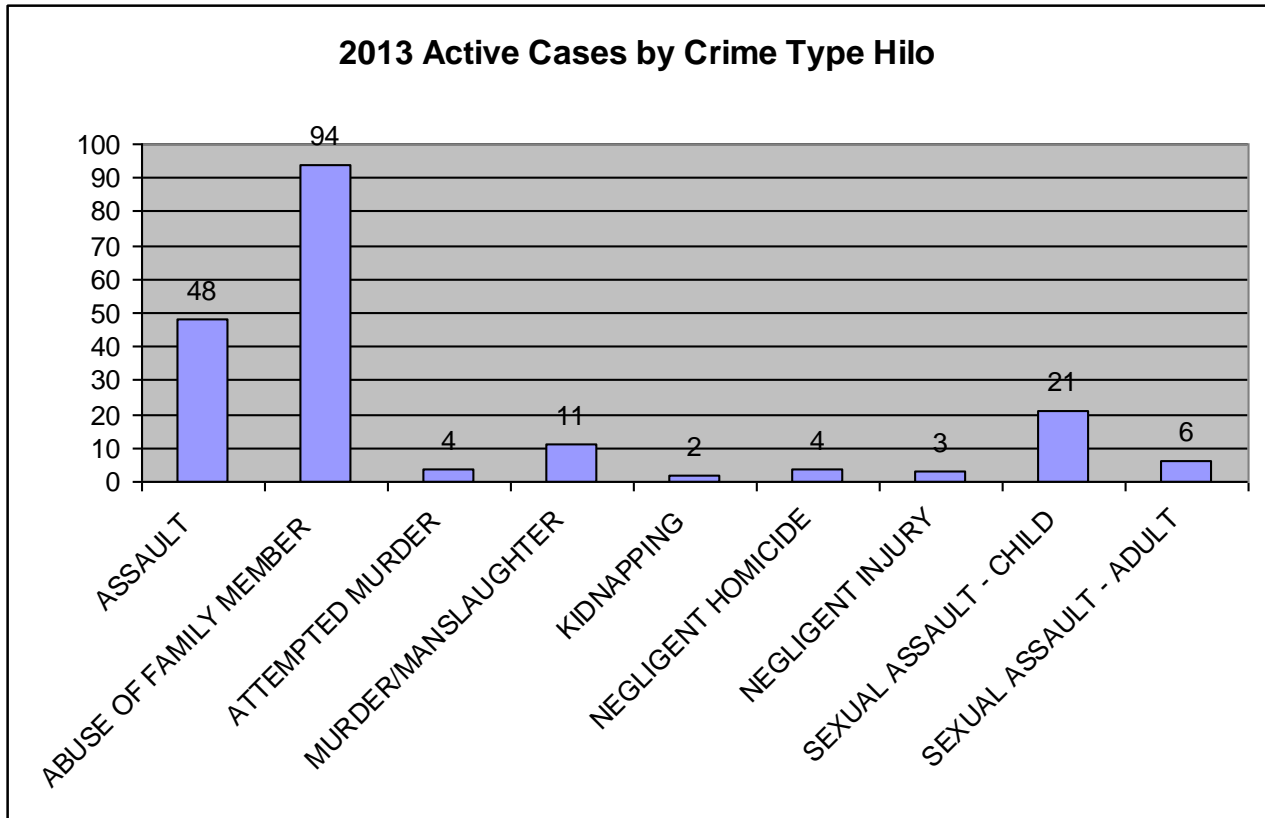

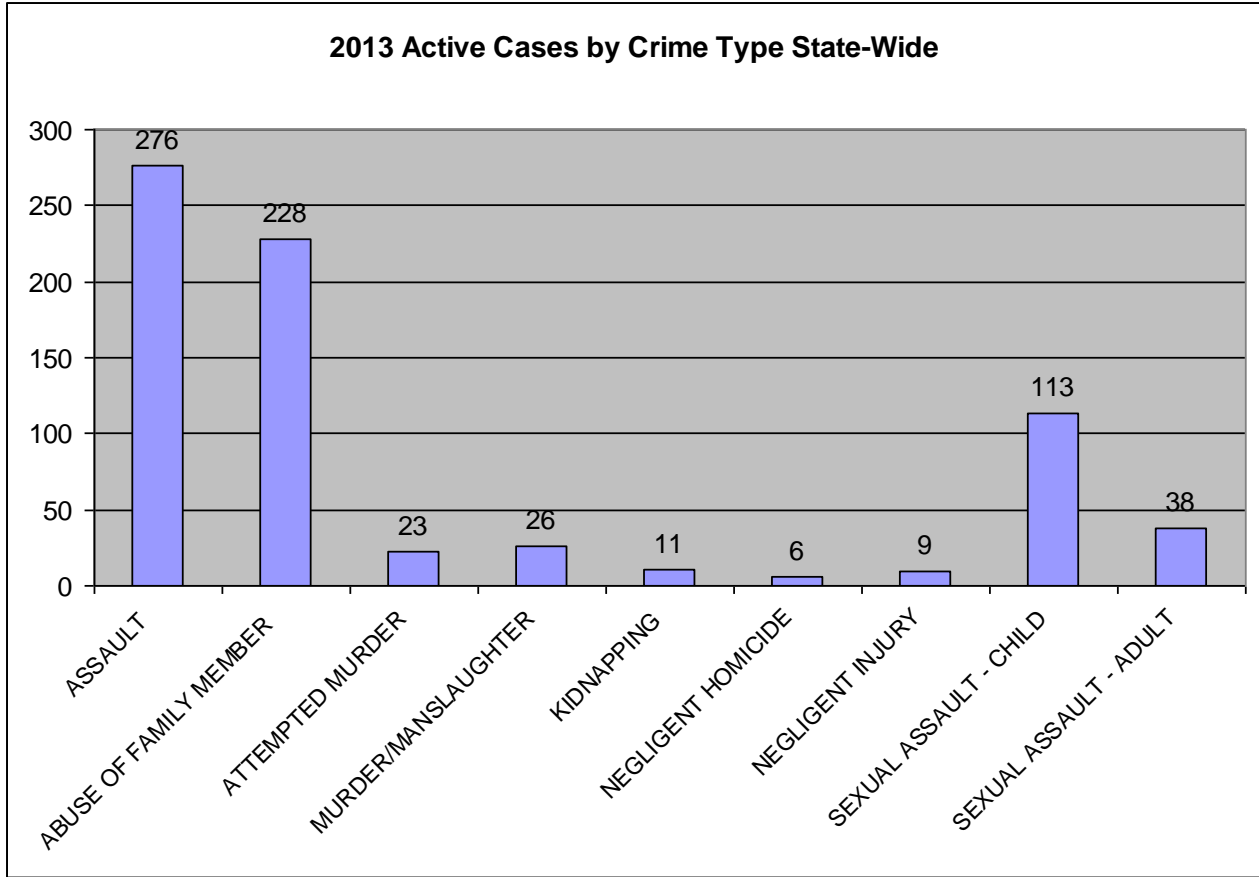

For each of the past forty-five years, the Commission has provided enhanced levels of service to the victims of violent crime in Hawai‘i. The Commission has streamlined case processing by increasing management efficiency, cultivating strategic partnerships with other public and private agencies, and making significant progress towards fiscal self-sufficiency. Even with all of these improvements, the Commission will maintain its pursuit of strategies to further improve services to crime victims.

The Commission will continue to diligently pursue its mission to mitigate the costly and emotionally devastating impact of violent crime on citizens and visitors through continued collaborative efforts, further improvements in management efficiency, and strong staff commitment.
