## **URINALYSIS DRUG TESTING OF OFFENDERS**

The Department of Public Safety's Drug Detection Program policy and procedure (COR.08.10) for offenders and defendants was established in order to standardize a statewide program to detect, control and deter the unauthorized use and/or abuse of drugs and alcohol by adult offenders/defendants in order to support the Department's commitment to its policy of zero-tolerance for substance abuse.

Drug testing is conducted at all of the Department's correctional centers, correctional facilities, community based programs and furlough programs. The general population at each facility is

tested randomly at 5% per month in addition to having suspicion or cause to test the offenders. Offenders in community based programs are tested a minimum of twice per month. Offenders in substance abuse treatment programs are tested a minimum of once per month.

During FY 2012, 9,754 tests were administered statewide; 533 tests, or 5%, registered positive for drug use. The total number of tests administered remains lower than normal due to decreased funding and a reduction in workdays due to furlough days.
