

**DEPARTMENT OF PUBLIC SAFETY
REPORT TO THE 2012 LEGISLATURE**

**RESPONSE TO SECTION 353C-7(c)
HAWAII REVISED STATUTES**

**Annual Report on the Status of the
Federal Reimbursement Maximization Special Fund**

December 2011

**Annual Report on the Status of the
Federal Reimbursement Maximization Special Fund
Fiscal Year 2011**

Section 353C-7, Hawaii Revised Statutes, established the Federal Reimbursement Maximization Special Fund (FRMSF) under the purview of the Department of Public Safety (PSD). Federal payments relating to the State Criminal Alien Assistance Program (SCAAP) are deposited into the FRMSF which are then used to meet state match requirements for federal grants and costs associated with federal grant reporting requirements.

SCAAP AWARD:	FY 2001	FY 2002	FY 2003	FY 2004	FY 2005	FY 2006	FY 2007	FY 2008	FY 2009	FY 2010	FY 2011	Net Balance
Funds Received	454,637.00	325,683.00	125,831.00	171,317.00	195,595.00	314,332.00	330,477.00	324,261.00	351,399.00	387,457.00	325,927.00	
Funds Expended	65,031.00	72,140.99	105,866.02	83,541.93	61,631.20	89,454.90	181,558.75	148,858.84	800,991.54	59,740.33		
												1,638,100.50

For fiscal year 2011, funds from the FRMSF were used to meet the state match requirements for the following programs:

\$15,600.74 for Residential Programs

The purpose of this grant is to continue building on PSD's success in operating the substance abuse treatment and reentry programs. Specifically, this grant focused on Evidence Based Practices (EBP) infusion for both Bridge programs and re-creating clerical positions at both Bridge programs. PSD's plan is to fund the clerical positions for three years with federal funds and in the third year, request state funding from the legislature for the next state biennium.

The EBP infusion of the Bridge program was implemented by providing staff with training and experiential application in how to utilize information on risks, needs, and responsivity identified through Level of Service Inventory - Revised/Adult Substance Use Survey assessment to target those areas effectively in treatment. PSD has contracted with Mr. Darin Kawazoe to train, coordinate and assist substance abuse staff in the goals and objectives as listed below.

GOALS

Residential Program's goal is to improve the delivery of substance abuse reintegration by addressing risk and need effectively in the Bridge programs.

OBJECTIVES

1. Seventy five per cent of those who complete the therapeutic community program at KASHBOX and who receive substance abuse reintegration services will not be rearrested one year after release from incarceration.

2. To fully implement evidence based model of addressing criminogenic risk, need, and responsivity in the Bridge program within one year.

\$14,691.00 for Implementing a Paperless Nursing Assessment of Medical, Mental and Substance Related Treatment and Re-entry Needs Among Detainees

The grant funds were used to provide Physician review, assessment, and oversight of the program research process. Dr. William Hanning, University of Hawaii, John A. Burns School of Medicine, has been instrumental in analyzing the data collected from the interviews conducted with PSD's patients.

\$5,362.19 for Prison Reentry Initiative

The Prison Reentry Initiative (PRI) supports strategies to deliver pre- and post-release assessments and services, and to develop transition plans in collaboration with other criminal justice and community-based agencies and providers for supervised and non-supervised offenders.

The grant allowed PSD to contract services with community provider to assist offenders in finding work and accessing other critical services in the community in order to assist the offender in successfully reentering society and reducing the rate of recidivism.
