The $42,791 augmented $260,000 included in the Corrections Program Services base budget for the Substance Abuse Treatment Continuum statewide. Sixty-four (64) inmates were admitted into the Kulani Correctional Facility level II program during the same timeframe as Kauai. Expenditures for the Sex Offender Treatment Program fall into three (3) major categories. The “Core” treatment services are being provided at Kulani Correctional Facility and the Halawa Correctional Facility. Upon completion of their primary treatment services, the offenders are transferred to a community correctional center to participate in their furlough program. The third category is the pre-release assessments.

For fiscal year 2005-2006 the legislature appropriated $70,000 for additional sex offender treatment services at the Kulani Correctional Facility (KCF) and the Oahu Community Correctional Center (OCCC). The funds were allocated for the purpose of eliminating the backlog of offenders waiting for treatment services prior to being released on parole.

At the end of fiscal year 2005-2006, there were forty-three (43) offenders receiving treatment services at Kulani Correctional Facility, which is nearly double the prior FY 2004-2005 total of 22. This increase resulted from the additional funds provided by the legislature. In addition, 19 offenders graduated from the program and were eligible for transfer to a community correctional center where they participate in the SOTP transitional program.

At the end of FY 2005-2006, thirty-seven (37) sex offenders were on furlough status at Oahu Community Correctional Center, which are double the 17 on furlough at the close of the previous fiscal year.

The Legislature appropriated funds for fiscal year 2006-2007 for substance abuse treatment, sex offender treatment, transition skills, job development and mental health treatment services for the pre-trial, incarcerated and parolee populations. Below are the actual expenditures from July 1, 2006 through October 31, 2006.
