#### 4.0 PROCEDURES

1. Branches having custody of the inmate shall enter status changes into the Corrections Management Information System CMIS (Offendertrak) on a "real-time, as it occurs" basis enabling victims to receive immediate notification via SAVIN. Status changes include: escapes, releases, return from escapes, return to custody, death, unsupervised custody, hospital, furloughs, intermittent sentences, and transfers. Any delays on entering information into Offendertrak will adversely affect victim safety.
  - a. The Victim Witness Kokua Service (VWKS) within the County Prosecutor's Office may opt to continue coordinating requests from the victim.
2. When CMIS is not operational, branches will either make data entries directly into Appriss Inc.'s secure website, VINEWatch (www.vinewatch.com), or contact Appriss Inc. directly at telephone: 866-647-7409 to inform them of these status changes as they occur, thereby ensuring that victims will continue to receive immediate notifications. When CMIS becomes operational, entries will be made into the system by 9 am (09:00 hrs.) of the next day.
