| Blayne Hanagami           | Concerns on Final Draft of Strategic Plan | • Everyone understands The Strategic Plan is not a permanent document, it’s a working document that can be amended and changed.  
• Plan needs a definition section to distinguish the difference between Reentry and Rehabilitation.  
• Does Reentry begin at intake or upon sentencing?  
  - Comprehensive Offender Reentry Plan states Reentry process begins upon admission to jail and prison.  
• Commission should adopt a “shall attitude” instead of changing HRS regarding implementing JRI or a Reentry model after research is done.  
• Is Reentry Coordination Office and Offender Reentry office one and the same? – It is one and the same. |
| Nolan Espinda, Director of Public Safety | Other Business – Director’s Report | • Latest weekly cap – Numbers at minimum security facilities are down due to people being furloughed, but, will go up after the next transport back in. We are in a lull right now.  
a. WCCC @ 99% Capacity  
b. KCF @ 76% Capacity  
c. HCF @ 71% Capacity 1 of 4 Modules closed for work.  
d. WCF @ 63% Capacity  
e. KCCC @ 157% Capacity  
f. HCCC @ 149% Capacity  
g. MCCC @ 140% Capacity  
h. OCCC @ 116% Capacity  
Continuing to work towards resolution. Primary plan is to use previously allocated monies to add on additions to all the triple C’s |
| Glen Hisashima | Question – Furlough Walk Away | • Are they being charged of 2nd degree escape?  
• How many have actually been convicted of that charge? |

| Direction provided by 2016 Legislature | Move forward towards a selection of a site  
• Compiling of EAS is ongoing with intent after reducing the sites from 11 to 4 to have a draft EIS in late November 2017 which would identify a single site.  
• Next step go through the Governor’s Office, then Legislature, from there decide what to do.  
• Those are the 2 channels a. Actually constructions (pins in the ground and got budgeted.  
b. Replacement of OCCC which came about through a separate initiative. |

| • 15 million to HCCC  
• 15 million to KCCC  
• 6.5 million to MCCC  
• 3.1 million to renovation of Hookipa Cottages at WCCC  
Totals already committed and in Plan & design. In addition, this past session the WCCC was granted 8 million for Plan & Design for the additional housing units. Concept is to move entire female population to WCCC.  
• Bill of interest – We have authorization to mirror the pre-employment process. Utilizing polygraph or CVSA Lie detector technologies in screening for Corrections Officers. |

</table>

**Public Testimony**
- Former Reentry Commission Panelist
- Commission was created due to Programs in the prison system were failing
- Feels Inmates should be incarcerated here in the islands and not across the ocean.
- Per Act 213 Part 3 Sec 102 of the approximate 6000 inmates in the State of Hawaii all but 300 would be released. For the sake of protecting the Community PSD is charged with providing reentry services to the 5700 inmates who will eventually be released from custody.
- Due to inadequate programming 80% of incarcerated inmates will return to the system within a 2 year period.
- Instead of building new prisons, invest those funds in programs (recovery, life skills, communication skills, cognitive skills) things that will make a difference.
- My understanding of why this commission board was created was to gather all the data from the current programs and find out what’s working and what’s not. The programs that aren’t working get rid of them.
| **Gary Shields** | Public Testimony | - Previous Executive Director of Victory Ohana Prison Fellowship.  
- It's not about building bigger prisons, it's about building better lives.  
- The whole issue about reintegration is really the key to the whole thing.  
- The problem is the implementation of what is put together.  
- Would like to see the reentry draft as there are things that could be implemented.  
- Pretrial is a stepping stone to prison, so quality services need to be implemented.  
- We need to use the ex-inmates.  
- Would like to see Public Safety be more open to working with groups in the community to start more programs. If groups aren’t meeting Public Safety standards instead of shunning them, help them get to a place where they are. Work together to help get these programs going to break recidivism rates. |
| **Kimmy Takata** | Response to Public Testimony | - Acknowledges Mr. Shields concerns and reiterates the value in creating a program using the people that are maxed out of prison or on parole.  
- States most of the time people who have maxed out or on parole are faced with finding the time outside of their basic everyday life responsibilities.  
- She is currently a part of a group that started in prison called Women Supporting Women. |
| **Glen Hisashima** | Response to Public Testimony | - Acknowledges both Mr. Maave and Mr. Shields concerns. |
| Wendell Murakawa, Chairman | Response to Public Testimony | Acknowledges what you are says and there are ways to accomplish it.  
| There's the Senate and House committees of Public Safety where they hold hearings about things like building a new facility. You can voice your opinion there.  
| Suggestions and be addressed directly to the department and they should connect with the community.  
| Would like to give you a final copy of the Reentry Commission Strategic Plan for your review and input, less Paragraph 6. Then we'll have a finalized plan. |

| Wendell Murakawa, Chairman | Next Meeting Date | Nona to email room availability dates. |
