

**Department of Public Safety COVID-19 Update for 2/3/21:**  
**Halawa Inmate Death Classified COVID-19-related**

The death of a male Halawa Correctional Facility (HCF) inmate, between 50 to 60-years old, is being classified by the Hawaii Department of Health as a COVID-19-related death. No additional information is being provided to protect individual medical privacy. This is the third death of an inmate classified by medical authorities as COVID-19-related. The first two (2) deaths, reported in November 2020 and January 2021, were Saguaro Correctional Center inmates.

HCF currently has just three (3) active positive inmate cases, two (2) of which are in medical isolation at the facility and one (1) hospitalized. There was one (1) negative HCF inmate result received today. The Oahu Community Correctional Center reported 21 negative inmate test results.
