### **DEPARTMENT OF PUBLIC SAFETY COVID-19 UPDATE**

HONOLULU – The Hawaii Community Correctional Center (HCCC) reports 42 recovered inmates. That brings the total active positive inmate cases at HCCC down to 69 and the total recovered up to 167. There were no new HCCC inmate or staff results received today. The Halawa Correctional Facility received 20 inmate test results. Of that number, 9 are positive and 11 are negative. The Department of Public Safety (PSD) Health Care Division identified all nine as recent transfers from HCCC. They were already in the transfer-related quarantine.

COVID-19 testing is continuously being conducted statewide at all facilities. The latest inmate testing results received for other facilities are as follows:

Oahu Community Correctional Center – 66 negative inmate test results

Women's Community Correctional Center – 3 negative inmate test results

PSD continues to encourage all staff and inmates to voluntarily get tested and receive the COVID vaccination. For more information on PSD's planning and response to COVID-19, inmate testing data, and information detailing the efforts made to safeguard the inmates, staff and public, visit our webpage at: <http://dps.hawaii.gov/blog/2020/03/17/coronavirus-covid-19-information-and-resources/>.
